

gko::version

```
graph BT; A[gko::version_info] -.-> B[gko::version];
```

The diagram illustrates a relationship between two version-related identifiers. At the bottom is a grey rectangular box labeled 'gko::version\_info'. A dashed purple arrow points upwards from this box to a white rectangular box at the top labeled 'gko::version'. To the right of the arrow, a list of version components is displayed in a light grey font: 'core\_version', 'cuda\_version', 'dpcpp\_version', 'header\_version', 'hip\_version', 'omp\_version', and 'reference\_version'.

core\_version  
cuda\_version  
dpcpp\_version  
header\_version  
hip\_version  
omp\_version  
reference\_version

gko::version\_info
